Word Learning Tip!

A **noun** is a word that names a person, place, or thing. A noun often appears before a verb and may have the word *a*, *an*, or *the* in front of it. A noun may be singular or it may be a plural, ending in *-s*, *-es*, or *-ies*. You can use these clues—and ask whether the word names a person, place, or thing—to determine if an unknown word is a noun.

Vocabulary Building Strategy

Use Context Clues You can find the meaning of nouns you don't know by using the context. Put together the meanings of all the words around an unknown word. This will help you understand a noun's meaning.

The After-School Garden

Danica was excited. The school **auditorium** was packed full of people. Students and teachers sat in rows facing the stage. The principal, Mrs. Yee, introduced the **speaker**.

Mr. Williams spoke in a friendly **manner** to the students. He said that students would grow vegetables on the school **property**. It was a piece of land next to the playground. The gardeners would gain **knowledge** about how to take care of plants.

This was a great **opportunity** for students to enjoy themselves, learn about plants, and grow some delicious, fresh vegetables to bring home. The **quality** would be very high.

Danica went home to her family's **apartment** in the building on Worth Street. She had an **agreement** for her parents to sign. This piece of paper said they would let Danica work on the garden after school. They were happy to sign the agreement. Signing it wasn't an **issue**, or hard decision, for them.

Seeing all the students outside on their knees in the garden was a **spectacle** to behold—a truly remarkable sight! They worked with great care, planting tomatoes, beans, carrots, squash, and lettuce in neat rows. The teachers watched the students' careful **movements** as they tried not to step on any of the new plants just coming up.

The students soon learned that the **basis** of gardening is to keep plants healthy. Gardeners water plants, keep them free of bugs, and keep away animals that might eat them.

When the vegetables ripened, they were in great **condition**. The kids had more than enough to take home. They set up a stand at the local fire **station** to sell the extra vegetables.

Racers on Four Paws

Every March, teams of sled dogs **compete** in a special race called the Iditarod [I-dit-er-ohd]. They pull a sled over more than a thousand miles of ice and snow across Alaska from Anchorage to Nome. The fastest team wins.

Winning depends on having a good team of dogs. Most drivers **prefer** huskies, since this breed of dog has a lot of energy. A race as hard as the Iditarod would **exhaust** weaker dogs.

The dogs and their human drivers train all year. They need to **maintain** good health and fitness so that they're ready for this difficult race.

The dog at the head of the team is the lead dog. During the race, drivers **assume** that their lead dog will follow their commands right away. If the lead dog **hesitates**, the other dogs will be confused. They might become upset or **annoyed**.

Drivers are careful not to **endanger** the dogs. They look for dangerous patches of ice. They watch the team for signs of trouble. Limping or a drooping head may **indicate** that a dog is injured or sick. The driver must not **neglect** a dog that needs help.

There are several rest stops along the way. At a rest stop, the driver will **release** the dogs from their harnesses. The driver and dogs **seize** the opportunity to eat and rest. The resting time **relieves** the lead dog from its job for a while.

After this rest, the team gets back to the race and **advances** over the icy trail. The first teams may reach the finish line in about ten days.

Dog-sled racing **fascinates** many people. They become fans of one driver and team and are there every year to cheer them on!

The Case of the Missing Tuna

Like most cats, I like my comfort. Usually, I do not **budge** from my bed before noon. Normally, nothing can move me to get up early, but today a strange feeling led me to **abandon** my soft cushion.

Never in my eight years of life have I felt such pangs. At first, I thought my stomach would **explode**, or burst. Perhaps I felt this way because I had licked up that spilled salt the night before. I hadn't **intended** to, but I couldn't resist when I saw it there.

I must **impress** upon you that I don't usually give in to temptation. But you'll have to **forgive** me. No one is perfect, not even me.

Then I realized that this strange feeling didn't **involve** being too full. It came from being hungry. I walked over to my food bowl, but what I saw there didn't **improve** the situation. It was empty.

In the old days, my bowl was always kept full. But then the veterinarian **discovered** this fact: When she found out that I could snack whenever I wanted, she **accused** me of eating too much. The unfairness of it all! Now I can no longer get a decent bellyful at all hours.

Then I saw a bowl of tuna sitting on the kitchen counter. I guess someone was about to make lunch. Could these aging muscles do it? Could I **succeed** in making the jump? I sprang with all my might and landed on the counter. I **nudged** the bowl, which fell to the floor. Immediately I followed, leaping down. The bowl wasn't **damaged** or hurt. I started eating quickly, gobbling up the delicious chunks. Some of the tuna was stuck to the sides, so I used my paws to **loosen** the stuck chunks.

What a satisfying meal. Today, I **committed** my first crime and became a cat burglar.

A complete sentence should have a subject and a verb. The subject and verb must **agree**, or match. If the subject is **singular** (only one), the verb must be singular. If the subject is **plural** (more than one), the verb must be plural.

In the present tense, add *-s* or *-es* to verbs when the subject is a singular noun or the pronouns are *he*, *she*, or *it*. Do not add an *-s* or *-es* when the subject is a plural noun or if the pronouns are *we*, *you*, or *they*.

Present Tense of Verb

Singular	Plural
The girl eats.	The girl and boy eat.
She eats.	They eat.

Directions Read each sentence below. First, choose the verb that best fits in each sentence. Then, in the blank, write the verb in the present tense in its singular or plural form. Make sure that the subject and the verb agree.

- Lionel and Max _____ (*abandon, forgive, impress*) their sister for eating all the popcorn.
- Fiona tries to follow the recipe for making tacos and she _____ (*budge, damage, succeed*).
- Iliana _____ (*commit, accuse, improve*) Hector of taking the last cookie from the cookie jar.
- Tarik and Tony _____ (*intend, loosen, involve*) to learn how to cook pizza someday.
- Lucy _____ (*nudge, accuse, discover*) Teddy to remind him to thank Mrs. James for the taco.

Create a Word Web Write the following category in the center circle of a word web: Things That Won't Budge. Then brainstorm to come up with as many words as you can to fit this category. Write them in the empty circles.

A Day in the Life of the Taino

Long ago, the Taino [**Tah-ee-no**] people lived on some of the islands in the Caribbean Sea. They lived on what are now Puerto Rico, Cuba, Haiti, and the Dominican Republic. This story shows what the life of these Indians was like more than five hundred years ago.

A Taino woman **awoke** at dawn. She **rose** early and got up from her sleeping hammock. This hanging bed **swung** between two wooden posts inside her house. Then she prepared breakfast for her family. She took some corn flour from a basket. The flour had been **ground** from corn that she grew herself. She mixed the flour with water and made corn cakes.

Her husband and children **sprang** from their hammocks. They jumped up eager to begin the day. The children **left** the house to search for wood for the cooking fire. After they **found** the wood and **brought** it back to the house, she cooked the corn cakes over the fire. After the flat cakes were baked, she **spread** them out on a mat. Each member of the family **tore** off a piece of corn cake to **bite** into.

During the day, the Taino mother and children took care of their corn, yams, and other plants. One child found a snakeskin in the field—the outer skin that a snake had **shed**.

The father joined a hunting party looking for iguanas and sea turtles. These hunters **understood** the habits of the animals they hunted. They knew where to find them. The hunters **crept** up behind the animals and caught them.

The sons had **become** expert fishermen. Sometimes they caught fish with their hands, sometimes they used nets, and sometimes they used lines. Today, they were lucky. They brought home several fish to cook for dinner.

Irregular verbs don't follow the pattern of adding the ending *-d* or *-ed* to create the past tense or the past participle. The only way to learn these words is to memorize them.

Present Tense	Past Tense	Past Participle
awake	awoke	awoken
bring	brought	brought
shed	shed	shed

The past participle of a verb is the form you use after *has* or *have*.

The teacher *has left* the room. They *have torn* their tickets up.

Directions Choose the verb form that best fits the sentence. Write the word on the blank.

- By the time the sun has _____ (*rise, rose, risen*), farmers are hard at work.
- Farmers of long ago often _____ (*awake, awoke, awoken*) before dawn.
- In earlier times, farmers _____ (*swing, swung*) long knives to cut down wheat.
- Then, they _____ (*grind, ground*) the wheat to make flour.
- A flour and water mixture called dough was baked and _____ (*become, became*) a loaf of bread.

Go on a Word Hunt Find a set of directions or instructions in a textbook, magazine, or newspaper. You can also look for recipes or directions for how to build something. An Art Show at School

by Sheena Ardell

“Let’s put on the best art show this school has ever seen,” said Mrs. Choi. “This class has so many **capable** students. You are all very talented and able to do great work. So I want you to put your talents to work.”

Mrs. Choi’s pep talk really inspired us. We worked for a month and set up the show. Everyone prepared carefully. No one was **sloppy**, or careless. We all wanted to do our best job.

Generous parents helped, too. They gave a lot of time and energy. They hung the works of art in the gym. They also made **tasty** cookies and other snacks.

Finally, the day of the show arrived. There were **numerous** paintings on display. An **enormous** oil painting by one of the students covered a whole wall of the gym. It was **immense**. The painting showed a **bitter** cold day in late December. Two people were out fishing on the lake.

On another wall were two smaller, **colorful** drawings. The swirls of bright color showed people dancing. A watercolor showed a **partial** view of a city street from an apartment window. You could see only the heads of the people down below. Another painting I liked was made up of **countless** dots of color. When you stood back from it, the many dots took the shape of a ship.

Some students painted plates and bowls. Each one had a clear and **distinct** pattern. Last but not least, Mrs. Choi presented a **bronze** sculpture she made showing a horse running.

The art show was declared an **absolute**, or complete, success. Such a **memorable** event will surely be talked about for years.

Look Up—It's Time to Climb!

When I think about rock climbing, danger springs to mind. I imagine huge, **craggy** rocks or sharp, steep cliffs. Climbing a cliff is too **extreme** for me! I like sports that are a little more ordinary—at least that's what I thought until last Saturday!

Laurel and I were feeling **restless** just sitting around, so she talked me into climbing a rock! It was actually a rock wall at Barney's Gym. We signed up for a beginner's class. Luck was with us. We were **fortunate** that we got in because it was the most popular class.

The instructor, Aaron, told us that the wall has holes, or knobs, where you place your hands and feet to climb. Climbing holes come in many colors, so people create different routes using the colors. At first, Laurel and I were **bewildered** and a little confused. Aaron assured us that we'd learn quickly. He'd always be **available** to answer questions and help. I was a little **suspicious**. But then I decided to trust him.

It's **necessary** to wear a safety harness when you climb a wall. I felt **clumsy** and awkward at first. I thought I would never be able to do it. But I'm **stubborn**. I don't give up easily. It really makes me **furious** and angry with myself when I give up. Finally I got more comfortable. And it was worth it.

Reaching the top was an **incredible**, amazing experience.

That day, I decided to become a **permanent** member of the gym! I'll never be a professional, but being an **amateur** climber can be fun. There's a contest coming up soon! Laurel and I are reading about **modern**, up-to-date climbing equipment and skills. Maybe we'll have a chance to win.

Make Word Cards Choose three vocabulary words. Write each word on the front of an index card. Draw a picture illustrating the word on the back of the card. For example, for the word *restless*, you could draw a tiger pacing back and forth in his cage. Write a sentence using the word under each picture.

Put Words Into Action

amateur	clumsy	fortunate	modern	restless
available	craggy	furious	necessary	stubborn
bewildered	extreme	incredible	permanent	suspicious

Directions Create a word map for the word *fortunate*. Provide two synonyms and antonyms for the word. Give two examples of things the word could describe, and give two non-examples, too. A non-example shows something the word doesn't describe at all.

Word Learning Tip!

Adverbs are words that describe verbs, adjectives, or other adverbs. Many adverbs end in *-ly*, but some do not. Adverbs can come before or after the word they describe and tell *how*, *when*, or *where* an action happens.

Vocabulary Building Strategy

Use Context Clues You can find the meaning of adverbs you don't know by studying their context. Put together the meanings of the words around an unknown adverb. This will help you understand the unfamiliar word's meaning.

Betsy Ross and the American Flag

Betsy Ross made the first flag for the new American nation. Mrs. Ross was a seamstress in Philadelphia. Her husband had been killed **accidentally** in January of 1776. He died in an explosion that no one had predicted. So **recently**, or not long ago, Mrs. Ross had become a widow.

Betsy Ross had to work to support her family. This was difficult, and she had **almost** given up hope of getting work when she received a visit from George Washington. General Washington had decided that creating a new flag was **especially** important to boost the spirit of his army. He asked Betsy to make it, and she told him that she would gladly take the job.

A loyal patriot, Mrs. Ross felt **downright** proud to be fashioning the first flag for the new country. She suggested that it have 13 stars to represent the 13 new states. She did not want to use 5-pointed stars. She recommended using 6-pointed ones **instead**.

General Washington and Mrs. Ross worked **comfortably** together. He agreed with most of her suggestions. Together they **gradually** came up with a perfect design. The new flag had 7 white stripes and 6 red ones. The stripes stood for the 13 colonies. In the left-hand corner was a circle of 13 stars on blue cloth.

Betsy Ross began sewing and worked **steadily** for a month. **Occasionally**, she worried that her flag would not be accepted, but she **certainly** had no need to fear. The new flag affected Washington's soldiers **powerfully**. A country's flag **usually** makes people feel proud. But this was not **merely** a flag; it was a symbol of hope. It helped the soldiers march **onward** through difficult times.

What's the Scoop?

Johari, Neal, and their friends decided to start a weekly newspaper. “The first thing we must decide is how much we can **charge** for each issue,” said Neal. They agreed that 25 cents was neither too little nor too much. “So a **quarter** is a fair price,” Neal stated.

“Okay,” Johari said, “let’s talk about features.” Luke suggested Sports Scoops, stories about sports events. Justin had an idea for a feature called Photo of the Week, but then changed his title to Click Picks. Everyone liked that name much better than his **initial** idea. Ayana suggested Science Sneaks— stories about **rare** and unusual animals in nature.

After about a one-hour **period** of discussion, Neal said in a **firm** manner, “Let’s get down to business. We have to decide the **content** of the articles for the **current** issue. What should the articles in our first issue be about?”

Johari added, “Let’s be **patient** and listen to everyone’s ideas. You never know how one not-so-great idea can lead to a fantastic one. Look at the number of newspapers sold in **relation** to the number of interesting articles. More good articles mean more people buy the newspaper. It’s our **sole** and only goal to create a really interesting newspaper. But it wouldn’t be bad to make some money, too.”

Ayana suggested an article about Jennifer Clark, the newscaster for **Channel** 25—a local TV station. Ayana said that she’d call to see if the station manager would **permit** two of them to interview her. Then Eduardo suggested an article about the Hayloft Restaurant, which was in an old horse **stable**. “It’s really cool,” he said. “Customers sit on huge bales of hay up in the hayloft! They also have the best **mint** ice cream in the city!”

“Ice cream!” responded Lily. “Now you’re talking. I vote that we go to the Hayloft right now and finish our plans there!”

A **synonym** is a word that means the same or nearly the same as another word. Synonyms can replace one another in sentences because they are the same part of speech. For example, in the sentences “It was an old chair” and “It was an antique chair,” *old* and *antique* are both adjectives with similar meanings.

Vocabulary Building Strategy

Use Context Clues You can learn what a synonym means by using clues in the words and sentences around it. Most often, one word has a meaning like another word that is in the same sentence or the next sentence. These words are synonyms.

The Accident

Josh’s grandma **cautioned** him about going down the back stairs. She **warned** him not to use them until they were fixed. The stairs were **old**, but lots of things in Grandma’s house were old. She called these things **antique**, meaning that, in addition to being old, they may have been valuable. The spinning wheel and the rocking chair, for example, were both made by hand a long time ago.

Josh meant to stay away from the back stairs. But one morning, he heard a loud noise in the backyard. Josh got very excited. That’s when he made his **blunder**. He made the **mistake** of running down the back stairs because they were the closest to the yard. About halfway down, a stair split in two. Josh fell and began **hollering**. When he **shouted**, Grandma came running. At first, she began to yell at Josh because he hadn’t minded her. Then she saw that he was really hurt. He was **clenching** his right ankle with his hand and moaning in pain. Grandma **clasped** Josh’s hand with hers and said, “I’m calling the **doctor** right now.”

Doctor Chen was Grandma’s **physician**. “You seem to have **fractured** or perhaps broken your ankle, young man,” he said. “We’ll have to get an X ray to see if you **shattered** your bone into little pieces.”

Josh had a **hunch** that he would be walking on crutches. His **guess** was correct. Yet, he found **creative** and **inventive** ways to get help when he needed it. He put together an electric buzzer so that he could call Grandma when he needed her. Grandma thought the invention was great, but Josh was **modest** about it. He didn’t brag because the accident had made him feel pretty **humble**. He was not proud that he had disobeyed his grandmother and used the broken stairs.

Some synonyms have small differences in meaning. These small differences are called **shades of meaning**. One synonym may have a more positive meaning than another (*antique/old*) or one may be more formal than another (*instructor/teacher*).

Synonyms can also show degrees of intensity or strength. A *frigid* day is *colder* than a *cool* day. Although *frigid*, *cold*, and *cool* are all synonyms, there are shades of difference in their meanings.

Directions Answer the following questions about shades of meaning in the synonyms. Write your answer in a complete sentence in the blank.

1. Which do you think is more embarrassing—a **blunder** or a **mistake**?

Why? _____

2. Which word—**physician** or **doctor**—would you be more likely to use in a letter to a friend?

Why? _____

3. Would you rather someone **clasp** your hand or **clench** it?

Why? _____

4. Which of the synonyms—**shout** or **holler**—would you be less likely to use in a formal school essay? Why? _____

5. Which word—**warn** or **caution**—would you put on a bottle of poison?

Why? _____

Write a Letter Write an informal letter to a friend in which you describe an accident that you or someone you know had. The Great Detective

One of the most famous detectives in the world is not a real person but a fictional character. He is Sherlock Holmes, the main character in a series of stories by the British writer Sir Arthur Conan Doyle. In the stories, Sherlock Holmes solves mysteries with the help of his best friend, Dr. Watson.

Holmes can find clues to a crime where other people see nothing. What they barely **glimpse**, Holmes **inspects** thoroughly. When others give their **opinions** about who is **guilty**, he gives **facts**. Holmes never falsely accuses an **innocent** person. He is **familiar** with methods of finding criminals that are **unknown** to the police.

Holmes and Watson share a second-story apartment in London. Many **frantic** people **ascend** the stairs to ask for help. By the time the worried person **descends** the stairs, he or she feels **calm** and assured that Holmes can solve the problem.

Sherlock Holmes is an **unusual** character with amazing gifts. His friend Dr. Watson, on the other hand, is more **ordinary**. The two work together very well. They **agree** about most things, but sometimes they **quarrel**. Watson **praises** Holmes for his brilliant mind, but Holmes sometimes **insults** Watson. The great detective thinks Watson allows his emotions to get in the way of his ability to reason or think clearly. Watson, however, has more sympathy for human weakness than the ever-logical Holmes.

The number of Sherlock Holmes fans **expands** every year. Millions have read about his adventures, and millions more may have seen stories about him on television or in movies. Since the interest in detective fiction seems to grow more popular every year, there is little chance that the number of Holmes fans will **shrink** any time soon.

descend	frantic	inspect	praise	unusual

Directions Replace the boldface words in each item with a pair of antonyms from the list. Write the replacement words on the blanks after each item.

- The television detective Columbo is very smart. He has an **extraordinary** intelligence, but he acts like an **everyday** person.

- Columbo never gets **upset**. No matter what happens, he seems **peaceful**.

- Detectives working in pairs need to **have the same ideas** on how to solve crimes. If partners **argue**, they lose time and fail to catch the criminals.

- Columbo and other detectives **look closely at** clues and speak to witnesses. Witnesses who only **briefly see** a suspect are not very helpful.

- Detectives cannot rely on **beliefs** that are not backed up by evidence. They need to find **true pieces of information** that will hold up in court. (Make the vocabulary words plural.)

- Sometimes the real criminal is **not known** for a long time. He or she might be a **well-known** person that nobody thinks would ever commit a crime.

- To gain his suspect's trust, Columbo goes out of his way to **say approving things about** them. He is careful never to **say upsetting things to** his suspects.

- You would think the pool of criminals would **get smaller** because of great detectives like Columbo, but the numbers of wrongdoers continue to **get bigger** each day—at least on television.

“Let me explain this scene!” the director calls out.

“Knights are on their way to a tournament, a big event in the Middle Ages. These

warriors **depart** from the huge castle of Sir Henry Craft. The sun is rising in the **eastern** sky as they ride on horses in a long line out of the castle gate. Their helpers, called squires, ride in front of the knights. The squires hold up a blue and gold **banner**. This flag shows Sir Henry Craft’s colors. In the center there is a special design, called a coat of arms, that also stands for Sir Henry’s family name. The knights **grasp** lances in their right hands, and they wear heavy armor that is made of metal plates. **Additionally**, each of them wears a sword on the left side of his armor.”

“Everyone moves at a steady, **rapid** pace. The knights ride quickly to get to the tournament on time as the morning sky gets **lighter** and brighter. Finally, they arrive and the event begins. The knights try to knock one another off their horses. Sir Henry falls off his horse. Because knights don’t beg, he refuses to **plead** for mercy. Instead he chooses to pay a big fine in gold to the knight who defeated him. Sir Henry decides it’s time to **retreat** and withdraws quickly from the tournament.”

“The tournament ends as the sun sets in the **western** sky. Everyone is tired after a day of thrilling tournament battles.”

“Do you understand the scene?” asks the director.
“Okay, let’s shoot it now!”

Word Learning Tip!

To learn a long word, try looking for the meaning in its parts. Some long words are made up of a prefix and a word or root. A prefix is a letter or group of letters you can add to a word to form a new word. For example, *dis* + *please* = *displease*. You can also add a prefix to a root—another word part. For example, the root *merge* comes from the Latin word for “dive”: *sub* + *merge* = *submerge*.

Vocabulary Building Strategy

Use Prefixes A prefix is always added to the beginning of a word or root. Put together the meaning of the prefix with the meaning of the word or root to determine the meaning of a new word.

Learn

More!

A prefix always has the same meaning. Use the meaning of the prefix to help learn what a new word means.

You know something right away about all the words that begin with the prefix *dis-*. They all contain the meaning “not, lack of, or opposite of.” Words with the prefix *fore-* all contain the meaning “in front of, ahead of, or before.” Words with the prefix *sub-* all contain the meaning “under or lower.” Words with the prefix *under-* all contain the meaning “below, beneath, or less than.” Notice that the prefixes *sub-* and *under-* mean basically the same thing.

Prefix	Meaning
<i>dis-</i>	not, lack of, opposite of
<i>fore-</i>	in front of, ahead of time, before
<i>sub-</i>	under, lower than
<i>under-</i>	below, beneath, less than

Find New Words With Prefixes Look through magazines and books. Find at least four new words, one each for the prefixes *dis-*, *fore-*, *sub-*, *under-*. Write the words and the sentences in your journal. Then try to write a new sentence for each word.

Sam Stormsniffer Tells All

Interviewer: My name is Jenny Jensen. I want to be a weather **forecaster** like you when I grow up, so I'd like to ask you a few questions about your job.

Sam Stormsniffer: I'd be happy to answer your questions, Jenny.

Interviewer: Do you like your job?

Sam Stormsniffer: I like being a forecaster, but in some ways I am **discontent**. For one thing, the TV station **underpays** me. News reporters get much higher pay. That's because weather forecasters are **underrated**. The station owner doesn't think we're that important, but the viewers do. They need our weather reports every day.

Interviewer: Do people **distrust** weather forecasters?

Sam Stormsniffer: Sometimes. Many people don't understand how hard it is to **foretell** the weather. Sometimes what we think will happen doesn't happen. Here's an example. I said that Saturday would be sunny and warm. Unfortunately, it rained all day. It was very **disagreeable** weather, and it **displeased** a lot of people.

Interviewer: What is the worst weather this area has ever had?

Sam Stormsniffer: Last winter, we had **subzero** temperatures with about 40 inches of snow. It caused people a lot of **discomfort**. It wasn't much fun going outdoors. In the spring, all the snow melted in three days and there were floods. It was terrible! Basements of houses were **submerged** in water and so was the **subway**. Workers had to go **underground** and pump out the water. Look at my hand and **forearm**. The water in the subway was up to my elbow.

Interviewer: Wow! That's pretty deep! Well, thank you very much for talking to me. In spite of all the problems, I still really want to become a weather forecaster.

Sam Stormsniffer: Good luck! You may want a **subscription** to *Stormsniffer Weekly*. It's my weekly magazine, which keeps people up to date on weather forecast information. I'll tell you what, how about I give you a free subscription, which saves you \$5 a month?

Interviewer: Great! Thanks!

Word Learning Tip!

Some words are made up of a word or root followed by a suffix. For example, the root *magni-* comes from a Latin word that means “great.” A root needs a prefix or suffix to form a word. Add the suffix *-fy* to *magni-* to form *magnify*. When you put together the meanings of the parts, you can figure out the meaning of new words.

Vocabulary Building Strategy

Use Suffixes When you add a suffix to a word, it often changes the part of speech of that word. For example, if you add *-fy* to a word or root, you make a verb. If you add *-ic*, you make an adjective. If you add *-ation*, *-tion*, or *-ment*, you make a noun. Sometimes, there are spelling changes when you add a suffix.

Learn

More!

Suffix	Meaning	Part of Speech
-fy	to make	verb
-ic	related to or like	adjective
-ation, -tion	the act or state of	noun
-ment	result of an action or state of	noun

Suffixes tell you the part of speech and they give you help in determining the meaning of an unknown word. For example, if you see the word *metallic*, you know from the suffix *-ic* that it is an adjective. Using the meaning of the suffix, you can determine that *metallic* means “related to metal” or “like metal.” So something that is *metallic* is probably made of metal. If something has a *metallic* taste, it would taste like metal.

What do the words “state of” mean in the suffix *-ation*, *-tion*, or *-ment*? “State of” tells you that it is the way something is. For example, if you are *fascinated*, you are very interested. *Fascination* is “the state of being fascinated” or the way it feels when you are fascinated.

Find New Words With Suffixes Look through newspapers, magazines, or books. Find a new word that contains each of the suffixes in this lesson: *-fy*, *-ic*, *-ation*, *-tion*, *-ment*. Write these words in your personal word journal. Also, write the sentence in which you find each word. Then add them to the suffix tree (page 93).

Jane Goodall, Scientist

Many scientists have a **fascination** with nature from the time they are children. Bugs and snakes may **terrify** other boys and girls, but not those who have **scientific** minds. They just want to know more about them. They look at bugs and rocks under a microscope. They like to **magnify** things so that they can see small details. For example, if you look at a rock through a magnifying glass, you can see **metallic** bits. Those are pieces of metal in the rock.

Jane Goodall is a scientist who studies chimpanzees in Africa. At the age of ten, Jane told her mother about her **intention** to study animals. Jane said she intended to live in Africa. When Jane was twenty-six, her dream came true when she was asked to work there. Without any **hesitation**, or doubts, she went to Africa to study chimps in the wild.

At first, the chimps were terrified of Jane. Over time, however, they made an **adjustment** to her. They began to trust her and let her come closer to them. Jane's **involvement** with the chimps helped her learn many surprising facts about them.

A famous scientist felt a lot of **admiration** for Jane. He helped her make an **application** to study higher-level science at college. This led to her **advancement** in the world of science. Jane used her fame to help the chimps. She worked hard to save them from **extinction** because she believed chimps were too important to let them no longer exist.

Jane Goodall has written many books about chimps. She writes in a **poetic** way about her love of animals. She can **simplify** scientific ideas so that most people can understand them easily.

Word Learning Tip!

You can learn the meaning of many long words if you know the meanings of any of the parts in them. These parts give clues that will help you determine the meaning of the entire word.

Vocabulary Building Strategy

Use Roots A root is a word part that carries a word's main meaning. A root cannot stand by itself as a word. It needs a prefix, suffix, or another root or word added to it to form a word. To determine the meaning of a word with a root, add the meaning of the root together with the meaning of any prefixes or suffixes in the word. For example, *astro* means "star": *astro* + *naut* = *astronaut*. An *astronaut* is a traveler to the stars and space.

Learn

More!

Root	Meaning
aster/astro	star, of the stars
stel/stell	star, starlike
mar/mari	sea, of the sea or ships
mig/migr	to move

When you see a word with the root *aster/astro* or *stel/stell*, you know that it has something to do with stars. When you see a word with the root *mar/mari*, you know it tells about the sea or ships. When you see a word *mig/migr*, you know it has to do with moving. The meaning of these roots is a great aid that helps you determine the meaning of unfamiliar words.

Daydreaming

It was September. The white and purple **asters** were in bloom. Luis sat on the dock of the **marina**. The sun was shining brightly on the **aquamarine** water. The sunlight on the waves sparkled like silver **asterisks**. Sailboats passed by quietly as if in a dream.

The boats made Luis think of the sailors of long ago. These sailors saw pictures or patterns in the stars in the night sky. The sailors of long ago used these star patterns to steer their boats across the open ocean. These clusters of stars came to be called **constellations**. The sailors gave names to the stars. A group of stars might look like a bear or a man with a bow and arrow.

Sometimes Luis thought he wanted to become an **astronomer**. Then he could learn all about the stars, planets, and other heavenly bodies. Maybe he would even invent an **astronomical** device that would advance the science of **astronomy**. Or, he could become an **astronaut** and travel into space.

If he couldn't go to outer space, perhaps he could have a **maritime** career and travel the waterways of the earth. He could work on a huge container ship or an oil tanker or maybe under the sea in a **submarine**. A career as a naval officer would be a **stellar** adventure. Everyone would admire him, and he could travel all around the world. He could **migrate** easily from country to country. When he retired from the navy, he could move wherever he wanted. Perhaps by that time he could **immigrate** to a colony on the Moon or Mars. Or he could stay in the United States if he did not want to **emigrate**. He would have the knowledge to make the best possible choice for himself.

Suddenly, Luis realized the sun was setting and he had spent the afternoon dreaming about his future. It was time to return to the present and go home for dinner.

Word Learning Tip!

A compound word is made up of two words that are put together to make one new word. If you know the meaning of the words that make up a compound word, you can determine the meaning of the whole word.

Vocabulary Building Strategy

Use Compound Words When you come across a long word that you do not know, look to see if it contains individual words that make it up. Then you should think about what the individual words mean. Next, add the meanings of the individual words together to come up with a meaning for the compound word. Finally, check to see if that meaning makes sense in the context in which you found the compound word.

Directions Read each compound word. Draw a line or slash between the two words that make up the compound word. Then write the two words in the blanks.

- barefoot _____
- videotape _____
- downpour _____
- timetable _____
- folklore _____
- loudspeaker _____
- thunderstorm _____
- runway _____
- teammate _____
- spotlight _____
- crossroads _____
- flashlight _____
- lifeguard _____
- masterpiece _____
- safeguard _____

Write a Sentence Choose one of the compound words from the vocabulary list. Break it apart into the two words that formed it. Write a sentence using each of these words. Then do the same thing for three additional vocabulary words.

Connect Words and Meanings

barefoot	flashlight	loudspeaker	safeguard	thunderstorm
crossroads	folklore	masterpiece	spotlight	timetable
downpour	lifeguard	runway	teammate	videotape

Directions Read each definition. Put the boldface words together to form a compound word that fits each definition. Then read the sentence that follows. Write this compound word in the first blank and then complete the sentence.

1. Definition: heavy rains that **pour down**

What a Party!

For more than 50 years, our city has sponsored a yearly party at the lake. Stories about this party have become part of our **folklore**. Just about everyone has heard tales about this party as they were growing up, and they in turn have told them to their children.

This year's party was a big success. Buses took people to and from the beach throughout the day. There was a published **timetable** so people could find out exactly when the buses traveled.

One of the most popular activities was the sandcastle contest. Albert Yeh created a fantasy home of the future. It even had a **runway** for a plane to land on. He beamed with pride as the newspaper photographer took a picture of him and his **masterpiece**. Albert likes attention, and he was in the **spotlight**.

Two teams competed in a game of volleyball. The team members played **barefoot** on the sand. At one point, one **teammate** hit the ball so hard that it ended up in a big, dark hole. Someone had to get a **flashlight** to see where it had gone.

In the late afternoon, huge clouds formed and the wind picked up. The **lifeguard** said it looked as if a **thunderstorm** was approaching. She wanted to **safeguard** swimmers from any danger, so she called out over her **loudspeaker**, "Everyone out of the water!" Everybody got out quickly and ran for shelter just as the **downpour** began.

Inside the picnic tent, the mayor spoke to us all. A news reporter made a **videotape** of his speech. "Our city is a great place to live, but it is now at a **crossroads**. As we get bigger, we may be tempted to forget our traditions. We must never lose the spirit shown here today."

Each of the vocabulary words is built from the word *care*. Knowing the meaning of a prefix or suffix will help you determine the meaning of the new word. (Note: When you add a suffix beginning with a vowel to *care*, you drop the *e* at the end of *care*. For example: *care* + *ing* = *caring*)

Prefix	Suffix
un- not	-er a person who
	-ful full of
	-ing action of
	-less without, lacking
	-ly in a certain way
	-ness state or quality of (makes a noun)

Also, some words are compound words made from other words and words plus suffixes: *carefree*, *caregiver*, *caretaker*, *childcare*, *daycare*, and *healthcare*. Knowing the meaning of each word in the compound will help you learn the meaning of the compound word.

Vocabulary Words

carefree	caretaker
careful	caring
carefully	childcare
carefulness	daycare
caregiver	healthcare
careless	uncaring
carelessly	uncaringly

Word Learning Tip!

When you read about a new subject in mathematics, such as algebra, you may see content words you don't know. These words are not the words that you read in most other books. They may also be the longest and most difficult words in the text. A clue to their meaning is that content words tell about the main topic. In this lesson, all the context words tell about algebra. Even if you don't know their meaning, you know that they are connected to the idea of algebra.

Vocabulary Building Strategy

When you read a new content word, you can learn its meaning by thinking about how it relates to the big idea in the text you are reading. Use this big idea to determine the exact meaning of each content word.

Directions As you look at the pictures and read the speech balloons, think about how the boldface words are connected to the topic. They work together to give you a big picture of algebra.

BONUS WORDS Here are four new words that relate to algebra. Remember that these words all deal with the same big idea as your vocabulary words. That means that even if you have never seen these words before, you do know one important fact—they all tell you something about this form of mathematics called algebra.

set A set is a group of numbers. This is a set of numbers: 2, 4, 6, 8, 10.

subset A subset is part of a set. A subset is made up of some of the numbers in the set. 2, 4, 6 are a subset of the set 2, 4, 6, 8, 10.

formula A formula is a rule that is expressed by using variables and numbers.

factor A factor is one of two or more numbers that are multiplied to make a product. In this number sentence, $6 \times 5 = 30$, 6 and 5 are factors of 30.

Directions Read each item below. Choose the vocabulary word or the new content word that best fits the context. Write the word in the blank.

1. This group of numbers—6, 8, 10, 12, 14—is called a _____ of numbers.
2. Here is a set of numbers: 1, 3, 5, 7, 9. The numbers 3, 5, 7 are a _____ of this larger set.
3. Tomas wants to find out how much wood he needs to build a doghouse. He makes up a way to solve his problem. He uses this _____: *height times width times depth*. It is written like this: $D = hwd$.
4. Kareem has 20 dollars to spend on music CDs. He needs to know the 2 or more numbers that can be multiplied to make 20. Another name for the numbers to be multiplied is _____(s).
5. Denise had to solve this _____: $y - 15 = 20$. The letter y is called a _____. The minus sign is called a _____.

Write About Algebra Algebra is used every day by scientists and mathematicians. With a partner, talk about how algebra might help you solve a problem. Then write about one situation in which you could use algebra to solve a problem. Use at least two vocabulary words and three new content words you have learned this week by using the Word Learning Tip and Vocabulary Building Strategy.

Directions The panels below are a storyboard for a video. Look at the pictures and the dialogue. Think about how the boldface words are connected to the big idea of how living things depend on each other for food..

We're going to see how living things depend on one another for food. That's called a **food chain**.

That means one animal eats another, right?

FOOD CHAINS

Cool!

This is the beginning of the ocean **food chain**. The small plants floating in the ocean are called algae. They make their food from sunlight. The krill are like shrimp. They eat algae. Krill are **herbivores**, which means they eat only plants.

Word Learning Tip!

When you read about a new subject, you may see new content words that you haven't seen in everyday reading. These words are often the longest and most difficult words in the text. They tell something specific about the topic. To learn these new words, think about the big idea or subject about which you are reading. All of the words in this lesson tell how living things depend on one another for food. They all tell about how animals eat.

Vocabulary Building Strategy

To learn the meaning of content words that tell about a new subject, make connections between the unknown words and the big idea or subject you are reading about. Tie together the big idea and the meanings of other content words you know in the text. This will help you learn the meaning of unknown words.

FOOD CHAIN

Here is the rest of the ocean **food chain**. These animals are all **carnivores**. They eat only meat. The cod eats the krill. The seal eats the cod, and the whale eats the seal. The animal that is hunted and eaten is called the **prey**.

Humans eat animals, like your tuna fish sandwich. We also eat plants, like that salad. We are **omnivores**.

We eat everything!
We are **omnivores**!

Directions Write the vocabulary word that best fits each definition. You may use your dictionary or the glossary to help you.

- Definition:** a living creature that eats a wide variety of plants and animals _____
- Definition:** a living creature that eats only or mostly plants _____
- Definition:** a living creature that is only or mostly a meat eater _____
- Definition:** a chain of living beings in which smaller and weaker creatures are eaten by larger and stronger creatures _____
- Definition:** an animal that is hunted and eaten by another animal
(or even by a meat-eating plant!) _____

Directions Write the vocabulary word that best fits in each blank. Use each vocabulary word only once.

A (6) _____ is made up of living creatures that eat one another. One example can be seen in the grasslands of Africa. An antelope is a (7) _____ that feeds on the grass. The lion is a (8) _____ that eats only meat. The lion hunts and then eats the antelope, which is its (9) _____. Monkeys live in the rain forests of Africa. They eat plant leaves and fruits. Monkeys also eat birds, birds' eggs, insects, and lizards. A monkey is an (10) _____.

Make Connections Among Words Many science words contain Latin roots. The three words that describe “eaters” in a food chain are *carnivore*, *herbivore*, and *omnivore*. The root *-vore* comes from the Latin word *vorare*, which means “to eat up completely.” Other Latin roots are *carni-*, which means “meat,” *herba-* which means “a plant with seeds,” and *omni-*, which means “all.” In your personal word journal, tell how these roots make up the meaning of these three words: *carnivore*, *herbivore*, and *omnivore*.

Directions Look at the food chains below. The first item that is eaten is at the bottom of the food chain. Write the vocabulary word that fits best in each sentence.

- A food web shows the different food chains in an environment. Figs, wasps, and spiders make up one _____
in the rain-forest food web.
- The wasp is the _____
of the spider that eats it.
- The eagle is a(n) _____
that eats meat.
- An ant is a(n) _____
because it eats only plants, such as orchids and other flowers.
- An adult wasp feeds mainly on fruit and sugar. It eats figs. Is the wasp a carnivore or an herbivore? _____
- The monkey is a(n) _____
because it eats both figs and lizards.
- An animal can be the _____
of a stronger, larger, or fiercer animal.
- A chameleon eats mostly ants and other insects. Is the chameleon a carnivore or an herbivore? _____
- One _____
in the rain forest begins with orchids.
- A spider traps wasps and other insects in its web and then eats them. Is the spider a carnivore or an herbivore? _____

Create a Food Chain Put a plant at the bottom of a food chain and show the animal or animals that eat it. Next, add an animal that eats the plant-eating animal. Look in an encyclopedia for information. Label each animal with the word *carnivore*, *herbivore*, or *omnivore*.

Directions Read the animal riddles below. Answer each riddle question with a vocabulary word. Write it in the blank.

- I am a rabbit. My fear is that an owl, hawk, or coyote will catch and eat me. What is the word that describes an animal like me that is hunted by other animals?

- I am a horse that eats hay. I like oats and apples, too. I do not eat meat. What is the name for an animal like me?

- I am a bear that eats mice, squirrels, and fish. Birds' eggs and worms are my favorite snacks. But I'm also famous for eating honey. I like berries, fruits, nuts, and the leaves and roots of plants. I guess you could say I'm an all-around eater. What is the name for an animal like me?

- I'm a tiger. We are strict meat eaters. What is the name for an animal like me?

- In a forest, squirrels eat seeds and nuts. A fox mother kills a squirrel for food for her babies, which are called kits. Later, a hawk steals a kit for its dinner. What is the name for this way of nature?

- The bald eagle is the national bird of the United States. This bird eats small animals. What is the name of an animal with these eating habits?

- What is a word for the small animals, such as squirrels, rabbits, and birds, that an eagle hunts?

- Sheep, goats, and camels eat grass. What is the vocabulary word that describes all these animals?

- Last night, I ate chicken, rice, and carrots. What word describes my eating habits?

- Alligators eat water snakes that eat fish that eat worms that eat water plants. What is the way these living things are linked together called?

predator an animal that lives by hunting other animals for food

Example: a shark

ecosystem a community of plants and animals that is affected by its environment, including the air, water, sunlight, and soil

Example: all the plants and animals in a lake

Directions Read each item below. Choose the vocabulary word or the new content word that best fits the context. Write it in the blank.

All the plants and animals that live in a forest form a(n) **(1)** _____.

The plants use sunlight, soil, and water to make their own food. Plant-eating birds and animals are called **(2)** _____. They eat grass, seeds, nuts, roots, and leaves.

Larger and stronger animals often hunt these plant eaters. These **(3)** _____(s), or hunters, depend on the animals that are their **(4)** _____.

Without them, the meat eaters, or **(5)** _____, would go hungry.

If there is a change in an **(6)** _____, all the members of the community are affected. If there is too little rain, some plants may die. Some of the animals that eat these plants will die also. Without **(7)** _____ to hunt,

the **(8)** _____ will have to move elsewhere to find meat. They will need to join a new community or they will die.

Think About It Think about the teeth of lions and tigers. Why do you think that carnivores such as these need long, sharp teeth? Write in your personal word journal to explain your answer. Use as many vocabulary words as you can and other content words that connect to the big idea of how lions and tigers eat.

Word Learning Tip!

When you read words about a new subject, you may see words that you have not seen before in your everyday reading. These words are often the longest and most difficult words in the text. They tell you something specific about the topic. To learn these new words, think about the big idea or subject. In this lesson, all of the words tell about volcanoes.

Vocabulary Building Strategy

To learn the meaning of content words that tell about a new subject, make connections between the unknown word and the big idea or subject. The new word will tell something specific about that big idea or subject. Tie together the big idea and the meanings of other content words that you know in the text. This will help you learn the exact meaning of the unknown content words.

Directions Look at the diagram of a volcano erupting, or exploding. Read the text and labels to learn about the parts of a volcano and about how the explosion of a volcano happens.

Eruption of a Volcano

The **eruption** of a volcano is a terrifying sight. A volcano can be **dormant**, or “sleeping,” for a long time. Then it can explode or erupt. Melted rock called **magma** pushes through the mountain and comes out of the **crater**. The **magma** becomes **lava**, or hot liquid, that flows down the mountain. Hot ash and gases also come out of the crater. This is called an **eruption**.

Lava is hot liquid rock that pours out of a volcano when it erupts. Hot ashes mix with lava as it flows down the mountain. When the lava and ash cool, they form new rock on the mountain.

A **dormant** volcano is one that is not active. But it could erupt again and then the volcano is active, not **dormant**.

A **vent** is the tunnel through which melted rock moves up to the **crater**.

The mouth of the volcano is called the **crater**. Melted rock, gases, ashes, and pieces of rock come out of this opening.

Magma is melted rock found deep underground. Magma becomes **lava** that flows out of the **crater** of the mountain.

Directions Below are interesting facts about the volcanoes. Fill in the blanks in the sentences with the vocabulary word that fits best.

- Volcanoes form wherever there is hot, melted rock called _____ under the ground. This hot rock pushes through the cooler rock until an explosion occurs.
- Mount Vesuvius erupted in ancient Roman times. The _____ that flowed out of the mountain poured into the Roman town of Herculaneum. It filled the town and the harbor.
- The Roman town of Pompeii was buried under ash and pieces of rock. Ashes and rock blasted out of the _____ at the top of Vesuvius. Pompeii was dug out in the 1700s. People now visit the town to see what Roman life was like thousands of years ago.
- Mauna Loa is the world's largest volcano. It erupted about 50 years ago. Since then, it has been _____.
- The _____ of Mont Pelee destroyed the city of Saint Pierre. Thirty-eight thousand people were killed by the poisonous gases from the volcano.
- Some volcanoes are under the ocean floor. When the volcano erupts, it makes a _____ or opening in the ocean floor.
- A volcano called Stromboli is in the Mediterranean Sea near Italy. The _____ of Stromboli seldom stops. The volcano can be erupting for months or even years at a time.
- _____ from underwater volcanoes collects on the ocean floor and makes underwater mountains.
- In 1982, El Chichon in Mexico erupted and killed 187 people. It is now "sleeping," or _____.
- The _____ of Krakatoa produced waves in the ocean that were 130 feet high. The waves drowned 36,000 people who lived on islands near the blast.

Understand Words Related to Science The word *volcano* comes from Vulcan, the Roman name for their god of fire. Romans believed that Vulcan lived in the sea under an island. They called this island Vulcano. The island was created by lava from an underwater volcano. Use your dictionary or the Internet to find three other words that come from Greek and Roman myths that are related to science.

The Eruption of Mount St. Helens

Mount St. Helens is a volcano in Washington state. It had been (1) _____ for close to 100 years. Then on May 18, 1980, Mt. St. Helens erupted. Steam and ash were blown out of the side of the mountain. This made a(n) (2) _____ or opening on the side, not the top, of the mountain. That was unusual because a crater is usually at the top of a mountain.

The people in nearby towns were surprised by the (3) _____ of Mt. St. Helens. But scientists knew the volcano would erupt sooner or later. Under Mt. St. Helens, there was melted rock called (4) _____. The last explosion had created a long vent or tunnel inside the mountain. The gases from the magma pushed it up through the vent. The gases made a hole called a(n) (5) _____ in the side of the mountain. A blast sent rocks, ash, and gases out of the mountain. A liquid, made of melted rocks, called (6) _____, came flowing out of the hole also. Later, when the (7) _____ began to cool, it hardened into rock.

Mt. St. Helens is once more a (8) _____, or “sleeping,” volcano. But it could erupt again. There is still (9) _____, or hot, melted rock, under the ground. It could push its way through the mountain once again. This would cause another (10) _____ of Mt. St. Helens.

Write an Eyewitness Report Imagine that you lived in a town near Mount St. Helens. Use the information in the passage above to write about what you saw and heard as the volcano exploded. Be sure to tell how you felt as the eruption was happening. Use as many of the vocabulary words as you can.

That means that even if you have never seen these words before, you know that they have to do with volcanoes. You can use what you already know about volcanoes to understand the meanings of these words.

extinct used to describe a volcano that has burned itself out and will probably not erupt in the future

inactive used to describe a volcano that is dormant, but could erupt in the future

Directions The paragraphs below are part of a travel brochure. They tell about various trips tourists can take to see volcanoes around the world. Read each trip description and fill in the vocabulary or bonus word that best fits in each blank.

VISIT THE WORLD'S GREAT VOLCANOES

Trip # 1 Mount Fuji is the highest mountain in Japan. It was once an active, or erupting, volcano. Now, it is a(n) **1.** _____, or dormant, volcano. Thousands of people climb to the top to see the mountain's **2.** _____, or opening. Because the volcano is not active, it is safe to be there.

Trip # 2 Aconcagua is a mountain in Argentina. It was once a volcano, but it is now **3.** _____. It has burnt itself out. The whole upper part of the mountain has crumbled away.

Trip # 3 Would you like to see a volcano that is always erupting? Then visit a volcano named Stromboli. You can see and hear its many **4.** _____ (s). The reason it is always erupting is that **5.** _____ inside the volcano is producing gas. The escaping gas causes a lot of explosions. Come see it on an island off the coast of Italy.

Word Learning Tip!

When you read about a new subject, you see many content words you have never seen before. They are often the longest words and describe difficult concepts about the subject. They are not words you read in a lot of other books. To learn them, think about the big idea that you are reading about and what part of it the new word is describing.

Vocabulary Building Strategy

When you read new context words, you can make associations and connections between that word and the subject and other long context words. You know that all the context words tell something important about the topic. You can use the subject, or big idea, and the setting that the author described so far in the text to determine the exact meaning of each context word.

Understand Words About Voting

In ancient Rome, a candidate for office wore a white robe to show that he was pure. The white robe showed that no one controlled the candidate or could tell that candidate what to do. The Latin word for white is *candidus*, and it is from this word that we get our word *candidate*. In your personal word journal, tell what qualities you think a candidate for office should have. Use at least two vocabulary words. Also, use two new content words you have learned this week by using the Word Learning Tip and Vocabulary Building Strategy.

Word Learning Tip!

When you read about a new subject, you may see words you have not seen before in your everyday reading. These words are often the longest and most difficult in the text. They tell you something specific about the subject. To learn these new words, think about the big idea or subject about which you are reading. In this lesson, all content words deal with figurative language, a special way to use words.

Vocabulary Building Strategy

To learn the meaning of content words that tell about a new subject, make connections between the unknown word and the big idea or subject. The new word will tell something specific about that big idea or subject. Tie together the big idea and the meanings of other content words that you know in the text. This will help you determine the exact meaning of the unknown content words.

Directions As you look at the pictures below and on page 153, think about how the boldface words are connected to the topic of figurative language. Use the examples and the words below them to learn the exact meaning of each vocabulary word.

This is a **literal** statement. It means just what the words say.

This is a **figure of speech**. It says the same thing as the **literal** statement. But it says it in a poetic or imaginative way by putting two words together that don't usually connect to the same big idea, like *music* and *company*.

A **simile** is one kind of **figure of speech**. It compares two very different content words by saying one word is like another. “Music is like a friend” is a **simile**. A **simile** uses the word *as* or *like* to make this comparison between two words.

A **metaphor** is another kind of **figure of speech**. It compares two very different words by saying that one is another. “Music is my best friend” is a **metaphor**. The words are not **literal**. They do not mean exactly what they say. Instead, they create an imaginative picture that shows an emotion, thought, or thing. This metaphor shows how much the boy enjoys music.

In this scene, a musical note acts like a person. It walks into a room and talks. Making a thing, idea, or word into a person is called **personification**. It's another kind of **figure of speech**.

Directions Read each definition and example below. Then complete the sentence that follows.

- 1. figure of speech** (noun): an expression in which words are used in a poetic way

Example: He is as strong as an ox.

Sentence: The **figure of speech** “as strong as an ox” means _____.

- 2. literal** (adjective): meaning exactly what the words say

Example: He is a very strong man.

Sentence: It is important to write the **literal** truth when _____.

- 3. simile** (noun): a figure of speech that uses the word *like* or *as* in which two very different things are said to be similar

Example: Her eyes are as blue as the sky.

Sentence: “The baby is as sweet as sugar” is a **simile** because _____.

- 4. metaphor** (noun): a figure of speech in which one thing is said to be another thing

Example: My love is a rose.

Sentence: A **metaphor** is different from a simile because _____.

- 5. personification** (noun): a figure of speech in which a nonliving thing acts like a human being

Example: The soft breeze ran its fingers through the leaves of the tree.

Sentence: The breeze is acting like a **person** because _____.

Directions Write *literal* or *figure of speech* next to each statement below.

- 6.** My love is as deep as the sea. _____

- 7.** The depth of the water is 36 feet. _____

- 8.** The sun took pity on the old man and warmed him with her rays. _____

- 9.** A book is food for the mind. _____

- 10.** The book costs \$21 _____

Directions Read these instructions for how to write a poem. Fill each blank with the vocabulary word or phrase that fits best. You will use each word twice. (The plural of *figure of speech* is *figures of speech*.)

1. A poem can express your feelings or tell your thoughts about a topic. But you don't want your poem to use only _____ language, or language that means exactly what the words say. Use some figurative language, too.
2. Try to use some figures of speech. Don't just say, "I feel angry." Use a _____ such as "I could roar like a lion."
3. If you are feeling angry a lot, you might use a _____ such as "I am a lion, roaring with anger."
4. Or you could try _____. You could take a feeling and make it act like a person. For example, you could say, "Anger walked the streets of the city and made everyone afraid."
5. A poem can be like a song. It can have a regular rhythm. The lines can rhyme. These poems use word pictures called similes, metaphors, or personification. Each one is a _____.
6. Other poems can be in free verse. These poems don't rhyme. The rhythm is the same as ordinary talking. But these are still poems because they use _____ to create word pictures and express thoughts poetically.
7. A _____ uses the word *like* or *as* to show that two things are alike or similar. An example is: "I feel as swift as the wind when I run."
8. A _____ is a stronger way to say that two things are alike. An example is: "When I run, I am the wind." Can you see the difference?
9. _____ creates a word picture that can be fun to read. Take a thing or idea and make it act like a person. For example: "The clouds are weeping today."
10. Similes, metaphors, and personification are all ways for poets to express their ideas. These figures of speech are not _____ statements. They don't mean exactly what the words say. But word pictures make a poem have more meaning than just saying the literal truth. So use your imagination and see what word pictures you can create.

Create Figures of Speech Pick a topic you would like to write about in a poem. Write a simile, a metaphor, and a personification about that topic. Save these in your personal word journal.

Directions Help Carlotta complete this composition about a poem she read. Choose the correct vocabulary word from the two in parentheses. Write the missing vocabulary word in the blank. Use each word once.

I liked the way the poet used (6) _____ (*simile, personification*) to describe the moon. He made the moon seem so shy that she often hid her light so people couldn't find her. There was one (7) _____ (*metaphor, simile*) I liked a lot. It is "The light of the moon was as gentle as a cat's purr." I know these words were not meant to have their (8) _____ (*literal, figure of speech*), or exact, meaning, because the light of the moon and a cat's purr are two very different things. But this (9) _____ (*figure of speech, personification*) created an interesting word picture in my mind. Another figure of speech I liked a lot was this (10) _____ (*metaphor, literal*): "The moon is a silver coin tossed in the sky."

Directions Read each item below. Choose the vocabulary word or the new content word that best fits the context. Write it in the blank.

- Figurative language creates _____ pictures in your mind. It helps you see things in new and unusual ways.
- Sometimes the _____, or picture, may surprise you. For example, thinking of a cat as a comma on a rug makes you see the cat in an unexpected way.
- You can identify a(n) _____ because it always contains the word *like* or *as*. When you say, “He is as clever as a fox,” you are using this figure of speech.
- A _____ is more direct. When you say “He is a fox,” you are using a metaphor.
- “The car hummed happily as we drove along a country road.” This is an example of _____, or making a thing act like a person.
- _____ language is the opposite of figurative language. When you use this type of language, you mean exactly what you say.

Make a Comparison Pick two poems that you like. Make a list of the ways they are similar. Do they both use similes, metaphors, and personification? Do they both have rhyme and rhythm? Next, make a list of the ways they are different. Then write a comparison between the two, telling how they are alike and different.

Directions Read each test item so that you will recognize how each word might be used in a test. Look at the information after the test item to find out more about the word.

Read the **passage** below. Then tell the main idea of the **passage**.

Jimmy's parents bought him a trumpet on his eleventh birthday. As soon as he got the trumpet, he started to practice every day for at least two hours. All the neighbors could hear him playing the same song over and over again. It didn't really bother anyone. In fact, everyone thought it was fantastic that he practiced so hard. And besides, they didn't even have to look at their clocks to know when it was time for dinner. Every night at six o'clock sharp, Jimmy stopped practicing. That meant his mom had called him to come downstairs for dinner!

A **passage** is a short piece of literature that you read on a test. Some **passages** are fiction. Other **passages** are nonfiction and give interesting facts and information. When you see a **passage** on a test, it means that you will have to tell about the **passage** or answer questions about it.

PROMPT: Choose two folktales from different cultures that explain why people should share. Compare and contrast these two folktales.

In your response, be sure to:

- tell from which two cultures the folktales come
- describe what the folktales mean to you about sharing
- give specific details and examples

A **prompt** on a test tells you how to respond. It describes the writing task and outlines everything you are expected to do to write a good response. The **prompt** may give you a topic about which to write, or it may have you choose something to write about. The **prompt** may also ask several questions for you to answer in writing.

RESPONSE: Both “Anita and the Crows” and “The Secret of Ling” tell about how two families learned to share. They come from Brazil and China. They taught me that it is important to share what I have with people who might have less. You never know when you might be the person who doesn’t have enough to eat. In the folktale from Brazil, “Anita and the Crows,” at first Anita is very selfish. Then she loses everything she has. Her only friends are the crows, who share food with her. In the Chinese folktale, “The Secret of Ling,” Ling’s family loses everything in a bad storm. The only family in the village who has anything left is the Lee family. They are the poorest family in the village, but they offer to share what little food they have with Ling’s family.

Word Learning Tip!

Some words in our language look or sound different because they were first used in another language or country. We “borrowed” these words and use them in the English language. Knowing a word’s history can help you understand its meaning. The words in this lesson all name foods that came from other countries and languages.

Vocabulary Building Strategy

Use Word History The words in this lesson name foods that come from Spanish, Italian, German, Japanese, and even the ancient Aztec Indians’ language. Picture each food in your mind. Think about where it came from and link the picture and place with the name of the food. This can help you understand the word’s meaning.

A World of Food Treats

Which do you like better—a **frankfurter** or a **hamburger**? You may think these are all-American meats. But they are not. Frankfurters and hamburgers came from Germany. Frankfurters are named after the city of Frankfurt, Germany. Hamburgers come from the German city of Hamburg. Do you eat **bologna** sandwiches? This meat product comes from Italy. It was named after the Italian city of Bologna.

Another favorite American food is **spaghetti**. It also comes from Italy. It is a form of **pasta**, a food made from flour and water. Pasta comes in many shapes and sizes. **Macaroni** is pasta cut into small, fat tubes.

From the late 1500s on, European explorers sailed to lands that were new to them. They brought back from Africa the yellow fruit that hangs from trees and kept its African name—**banana**. They brought **curry** from India and kept its Indian name. This spice mixture was used to make meat and vegetable dishes. **Coffee**, a hot or cold strong-tasting drink, and **kebabs**, meat or vegetables cooked on a stick, came from Turkey. Spanish explorers returned from Mexico with **avocados**, a green fruit that we eat very much like a vegetable. **Tofu**—a soft food made from soybeans—is from China and Japan. We kept its name, although we changed its spelling and pronunciation a bit.

Some foods came to the United States with early settlers who used the words from their native lands. The Dutch put vegetables in vinegar or salt and water so they would not spoil. A cucumber that has been preserved in vinegar or salt is called a **pickle** after the Dutch word *pekel*. **Cole slaw** is a salad of shredded cabbage and mayonnaise. It comes from the Dutch word *koolsla*. **Strudel** is a German word that names a tasty German pastry with a fruit or cheese filling. The original German word meant “whirlpool.” When you taste strudel, do you feel a whirlpool of tasty delights on your tongue?

Buster's Rescue

“Did you know that a **horse** can talk?” asked Jared. “Watch Starbuck eat from that **bale** of hay. See how he **chews**. Now he draws back his lips and says, ‘Neigh.’”

“But that means no more than a bird saying, ‘**Cheep, cheep,**’” I reply.

“Moon Shadow’s nudging Starbuck to get at the food. Listen to Starbuck squeal at the other horse. That squeal is a warning signal that says, ‘Stay away’ or ‘Watch out.’” explained Jared.

“Let’s walk down the **aisle** between the stalls. **Choose** a seat. Pull up one of those old chairs. I want to tell you a story.” said Jared.

“Every horse has its own special whinny or neigh. When I hear you speak, I can recognize you by your voice. I can even tell it’s you when your voice is a little **hoarse** from a cold. Horses can recognize one another by the sound of their whinnies and neighs. They can hear this sound from half a mile away.

“Last year I brought Moon Shadow and her foal, Buster, to a horse show on Greenwood Island. Of course, you know that a foal is a baby horse. The first night there, I rowed out to watch the sunset. The sunset was beautiful, but I had some trouble with the boat. It was a pretty **cheap** rowboat, though, not at all an expensive one. I had to **bail** water for most of the night because the boat leaked so badly.

“The next day, Buster got lost. Moon Shadow whinnied, calling for her child. Her ears pricked up when she heard an answering neigh. Off she ran, with us following, until she brought us right to where Buster was trapped by a fallen tree.”

“After we freed the foal, Moon Shadow and Buster nickered gently. Horses make this soft sound to greet one another. A mare uses it to tell its foal to stay close.”

I laughed, “**I’ll** bet Moon Shadow nickered the rest of the time you spent on the **isle**.”

Word Learning Tip!

English words come from many other languages. Some English words are pronounced the same but are spelled differently and have different meanings. Although they sound the same, they are really two different words.

Vocabulary Building Strategy

When words sound alike but are spelled differently and have different meanings, they are easy to confuse. Think about the context of the sentence to determine the correct homophone. You can also look at how the word is spelled. Both of these strategies can help you to determine the meaning of the word and how it is used in the sentence.

Directions Circle the letter in front of the word in each pair of homophones that fits the definition. You may use a dictionary or your glossary to help you.

- to make a sound like a baby bird; from a Scottish word that imitates the sound of a bird
A. cheap **B.** cheep
- to scoop water out of a boat; from an Old French word for bucket; the word also means a sum of money paid to get someone out of jail
A. bale **B.** bail
- a rough, husky voice; from the Middle English word *hors*
A. horse **B.** hoarse
- an island; from the French word *ile*, for island
A. aisle **B.** isle
- to pick out something or someone from among several; from a Middle English word that meant “to split”
A. choose **B.** chews
- not costing very much; from the Old English word meaning “not expensive, a bargain”
A. cheep **B.** cheap
- a bundle of something tied up tightly, such as hay or straw; from an Old French word meaning “ball”
A. bale **B.** bail
- grinds food with its teeth; from an Old English word meaning “to bite”
A. choose **B.** chews
- a pathway between seats in a theater or train; from the French word *ele*, meaning “a wing of a building”
A. aisle **B.** isle
- a large animal with hooves that people ride; from the Middle English word *hors*, which split into two different words forming two homophones
A. horse **B.** hoarse

Play a Word Game Your teacher will hand out flashcards with a word on one side and a definition on the other. Take turns. Shuffle the cards, and then put the cards face down. Each player takes a card from the pile and makes up a sentence for that word. If the player uses the word incorrectly, he or she gives the card to the other player. Keep playing until you have made up a sentence for each card.

Griots: Keepers of History

Some stories have been passed along orally from one generation to another. They have not been written down. In Africa, special people have been given the honor of retelling the stories of their ancestors. They are called griots (GREE-oz).

Long ago, griots were advisors to the kings of the great empire of Mali. Today, they still perform important tasks by giving **advice** to people in their community. Their most important job, though, is to retell the ancient stories of their ancestors.

Griots tell different kinds of stories to help them inform and entertain people. Sometimes they tell trickster tales to **advise** people about what is right or wrong. They also share myths to explain **customs** that are part of their community. Griots might even dress in a **costume** to portray a certain character. Good stories can **affect**, or influence, how people live.

The griots' stories and songs have a strong **effect** on people. Sometimes, the listeners **suspect** that parts of the stories are not exactly true. Even so, they don't want to **lose** the stories of their past, so it's not important to them that every detail is accurate.

For entertainment, the audience **expects** griots to "raise a song" so the community can respond. This is called "call and response." When griots sing a song-tale, they play stringed instruments that they pluck, and they wear long, **loose** robes. Griots have been retelling stories for hundreds of years now. The art of storytelling remains a beautiful living tradition in Africa and other places.

Word Learning Tip!

Sometimes words are easy to confuse because they sound almost alike. However, they have very different meanings. The two easily confused words may have come from different languages. Or, they may have come from the same word, but as their pronunciations started to change, so did their meanings.

Vocabulary Building Strategy

It is sometimes easy to confuse words because they sound similar, but remember their meanings are always different. One way to tell the difference between words that are easily confused is to look at the context in which a word is used. Then create a clue tied to the spelling of the word to help you remember that word's meaning.

Connect Words and Meanings

advice/advise affect/effect costume/custom expect/suspect loose/lose

Directions Choose the correct vocabulary word for each definition. Write it in the blank.

- Definition:** to influence people, or to change someone or something (borrowed from the Latin word *affectare*, meaning “to exert influence”) _____ (effect, affect)
- Definition:** to think that something ought to happen (borrowed from the Latin word *expectare*, meaning “to hope or to look for”) _____ (suspect, expect)
- Definition:** not fastened or attached firmly (borrowed from the old Norse word *lauss*) _____ (lose, loose)
- Definition:** clothes worn for some purpose or occasion (borrowed from the Old French and Italian word *costume*, meaning “fashion or habit”) _____ (costume, custom)
- Definition:** to give someone a suggestion about what to do (borrowed from the Old French *avis*, meaning “opinion”) _____ (advise, advice)
- Definition:** to think something might be true (borrowed from the Latin word *susplicere*, meaning to “to look under”) _____ (suspect, expect)
- Definition:** a tradition in a culture or society (borrowed from the Latin word *cōnsuētūdō*, meaning “habit”) _____ (costume, custom)
- Definition:** a suggestion about what someone should do (borrowed from the Old French phrase *a vis*, meaning “opinion”) _____ (advice, advise)
- Definition:** the result or consequence of something (borrowed from the Latin word *effectus*, meaning “result or completion”) _____ (affect, effect)
- Definition:** to not have something anymore (developed from the Old English word *losian*, meaning “to lose”) _____ (lose, loose)

Write a Trickster Tale Work with a partner. Brainstorm a clever animal character for your story. For example, you might want to use a tortoise, an owl, or a mosquito! Then discuss how the animal character *advises* people about something that is right or wrong. Write the story in your personal word journal. Use at least six vocabulary words in your tale.

Lights! Camera! Action!

Elvira couldn't believe it! She got the part. For two weeks, the movie director hadn't been able to make up his mind between two people. He had been **sitting on the fence** about picking her. Elvira really wanted the role of the famous comic. It **fit like a glove**. What a perfect match! At the tryout, the director really liked her jokes. He could barely **keep a straight face** when she told the joke about the elephants.

On the first day of rehearsals, Elvira **got off to a flying start**. The director enjoyed her songs. The crew laughed at all her jokes. Elvira was thrilled, but the afternoon rehearsal was a disaster. She forgot the words to her songs. Even worse, she sang off-key, and her tap-dance routine was the biggest disaster of all.

The director was impatient. If she didn't improve, he might regret his choice. Elvira would be **in the doghouse**. She thought that she might get fired, and, if she did, she didn't know how she'd **make ends meet**. She didn't have much money saved. Of course, she did have her part-time job at the theater. "**Half a loaf is better than none**," her cousin Tasha always said.

She was sure that she was going to have to **face the music** any moment, and she didn't mean facing her songs. She thought the director might replace her. A few minutes later, the director said: "Five-minute break!"

Elvira walked over to Melissa, the makeup artist, to get a retouch. "Listen, Elvira, you made one mistake and then a lot of mistakes followed. Sometimes **when it rains**

it pours. It's your first day. It'll work out."

"Thanks!" said Elvira. "Also, I think that I'll just try to remember that **lightning never strikes twice!**"

Guess what? It didn't. After the break, Elvira sang every song well and danced every step perfectly for the rest of the day!

- **get off to a flying start**
- **half a loaf is better than none**
- **in the doghouse**
- **keep a straight face**
- **lightning never strikes twice**
- **make ends meet**
- **sit on the fence**
- **when it rains, it pours**

Word Learning Tip!

An idiom is an expression that means something different from what the individual words normally mean. When the words are put together, they are an imaginative way of expressing an idea. For example, to "sit on the fence" means to "not make up your mind." Remember the meaning of "sit on the fence" by imagining a person sitting on a fence, unable to decide which side of the fence to climb down.

Vocabulary Building Strategy

An idiom is a group of words with a special meaning that may have been created a long time ago. To determine the meaning of an idiom, think about the overall picture that the words could communicate.

| _____ | 5. in trouble or in a bad spot |
| _____ | 6. to have a good beginning |
| _____ | 7. something unusual that happened once won't happen again in exactly the same way |
| _____ | 8. to not show what you're really feeling; stop yourself from laughing |
| _____ | 9. to confront an unpleasant situation; accept punishment or harsh words |
| _____ | 10. to live within one's income or means; make and spend the amount of money that you have |

Create Idiom Tips Work in small groups. Choose three idioms. Write them on separate paper. Come up with three tips that might help you remember what these idioms mean. For example, picture in your mind what it looks like when rain pours down heavily. Think of a tip you could use to remember *when it rains, it pours*.

Use Words in Context

- face the music
- fit like a glove
- get off to a flying start
- half a loaf is better than none
- in the doghouse
- keep a straight face
- lightning never strikes twice
- make ends meet
- sit on the fence
- when it rains, it pours

Directions Read each question. Think about the imaginative meaning of the idiom. Then write your answer on the blank line. Remember to write complete sentences, and include the idiom in your answer.

1. Do you think it is true that **lightning doesn't strike twice**? Why or why not?

2. When have you found it hard to **keep a straight face**?

3. What hobby or sport do you like that **fits you like a glove**?

4. Why would you not want to be **in the doghouse**?

5. What is an example of **half a loaf being better than none**?

6. What does it usually mean when someone has to **face the music**?

7. Why is it important to **make ends meet**? _____

8. If someone is new at a school, how could he or she get **off to a flying start**?

9. In what situation might you use the idiom **when it rains, it pours**?

10. Do you think it is a good idea or a bad idea to **sit on the fence** when you have to make a decision? _____

Play Idiom Charades Break into teams. Write the idioms on a piece of paper and put them in a bowl.

Ask a volunteer from each team to pick an idiom. Point out that there are many hand gestures and pantomime movements that lend themselves to these particular idioms. Take some time to decide how your group is going to act out the idiom. Then take turns acting out your idioms for the class.
